

PARTICIPANT ORGANISATION PROFILE

1. General Information

- **Official Legal Name:** HubStudentsEurope Mihai Rusea Tmi (HubStudentsEurope - HSE)
- **Business ID / Registration Number:** 3649221-1
- **Organisation ID (OID):** E10440299
- **PIC (Participant Identification Code):** 862237560
- **Legal Address:** Rauma, 26100, Finland
- **Website:** www.hubstudentseurope.com
- **Contact Email:** info@hubstudentseurope.com / mihai.rusea@yahoo.com

2. Background and Experience

HubStudentsEurope is an independent digital infrastructure and public service resource center designed to support international student mobility, digital education frameworks, and non-formal learning across Europe.

The organization operates on a foundational model combining **industrial-grade process rigor** (zero-defect standards adapted from advanced technological environments) with human-centric social design. Our core mission is to streamline cross-border transitions, eliminate administrative friction, and provide robust safety architectures for mobile students, youth workers, and educational institutions.

3. European Recognition & Institutional Validation

- **Interoperable Europe Portal Listing:** The core digital infrastructure, tools, and cross-border procedural roadmaps hosted on HubStudentsEurope.com have been officially validated and listed as a recognized interoperability solution for international students within the European public services space on the **European Commission's Interoperable Europe Portal:** <https://interoperable-europe.ec.europa.eu/collection/education-culture-and-sport/solution/hubstudentseurope-cross-border-student-mobility-public-services-procedural-roadmap>
- This high-tier institutional recognition guarantees full compliance with European digital standards, transparency, and architectural reliability for any transnational cooperation project.

4. Key Activities & Expertise relevant to KA210 / KA220

- **Digital Infrastructure & Architecture:** Development of modular web ecosystems, digital workflows, and open educational resources (OER) designed to reduce the administrative burden of sending and receiving institutions.
- **Security & Anti-Fraud Frameworks:** Implementation of specialized digital safety protocols, including rental safeguard systems and procedural roadmaps to protect participants from operational risks during mobilities.
- **GDPR-by-Design Compliance:** Strict adherence to data privacy regulations through a zero-personal-data-collection architecture, ensuring complete digital safety and integrity.

- **Project Dissemination & Integration:** Seamless integration capabilities as a technical and digital partner in Erasmus+ consortia (KA210 and KA220), providing scalable digital tools, guidance systems, and broad transnational outreach.

5. Profile of Key Persons (Project Coordinator)

- **Coordinator:** Mihai Rusea
- **Expertise:** Bridging advanced systematic engineering discipline (high-precision process management and operational compliance) with social sciences and institutional framework design. The coordinator personally oversees the technical architecture, security protocols, and strategic development of the platform, ensuring zero structural deviations and elite-level execution across all project deliverables.
